Practice VPN

For defining the networks use the rules below:
   a) the branch on the left side uses IPs from the network **10.10.10.0/26**;
   b) on the right-side use IPs from the network **8.8.8.128/27**;
   c) the central network uses IPs from the range **100.100.100.32/28**.
For the *remote VPN* connection, use IPs from the network to which the address **1.2.3.6/30** belongs.
A connection between all devices must be ensured using **RIPv2**.
